Nationality Nigeria

EDUCATION

Oct 2024 – June 2026

Vienna University of Economics and Business
MSc. Digital Economy-Information System (**Graduated**)
(Language of instruction: English)

- **Relevant Courses:** Security & Privacy, IT Governance, Business Process Management, System Development, Data Science, Distribution System, IT Law, Business Project Management, Research Lab, Value-Based Engineering, Blockchain.
- **Master's Thesis: "**The Relationship between Social Norms and Artificial Intelligence"
- **Research Lab "Who Exploits AI" and Data Science Projects**:
- Worked on time-series data, classification, anomaly detection and forecasting tasks.
- Applied SHAP and LIME to evaluate model behaviour and interpretability.
- Applied machine learning techniques using TensorFlow, PyTorch, and Scikit-learn to develop, train, evaluate, and optimize predictive models for data-driven decision-making.
- Worked with Retrieval-Augmented Generation concepts combining Large Language Models with external information sources.
- Drove continuous project delivery within an Agile (Scrum) framework, managing experimental execution and applying logistic regression to extract actionable statistical insights.
- Conducted large-scale computational analysis of textual data to investigate changes associated with the adoption of LLMs.
- **GPA:** 2.10/5.0 (1=Excellent and 5=Fail)

Dec 2015 – Mar 2022

Federal University of Technology, Owerri, Nigeria
Bachelor's in Financial Management Technology (**Graduated**)
(Language of instruction: English)

- **Relevant courses**: Finance, Accounting, Economics, Management, Data Analysis, Computer Operating Systems/Research.
- **Bachelor's Thesis:** The Impact of Electronic Banking on Nigeria's Economy
- **GPA:** 3.74/5.0 (5=Excellent and 1=Fail)

WORK EXPERIENCE

June 2026 – August 2026

Mercor | United States | Remote | Contractor
AI Evaluator Independent Contractor

- Used, tested and evaluated AI and LLM tools to generate tailored responses and improve automated communication workflows.
- Evaluated AI-generated outputs for accuracy, compliance and data-security requirements.
- Identified weaknesses in AI-generated responses and contributed to improvements in automated workflows.

Feb 2025 – Feb 2026

Mentor Me Collective | United States | Remote | Apprenticeship
Cloud Cyber Security Analyst

- Configured and managed Google Cloud IAM to enforce least-privilege principles, reducing unauthorised access risk.
- Implemented Google Cloud Security Command Centre, Cloud Armour, and VPC Service Controls, reducing potential attack surfaces.
- Analysed network vulnerabilities using Nmap and examined network traffic with Wireshark to detect malicious activity.
- Investigated suspicious activity using Splunk and Wazuh dashboards and reports.
- Regularly reviewed industry standards and contributed insights on topics such as NIS2, IAM, and Zero Trust.
- Responsible for the administration of Windows and Linux IT systems.
- Simulated a threat against Active Directory to validate security vulnerabilities. Link: LinkedIn Post
- Simulated threats against new products using Metasploit to validate security vulnerabilities and exploitability, and to perform software testing and quality assurance.

Dec 2023 – Sep 2024 | **MeriSkills | India | Remote | Part-Time**
Data Analyst

- Designed and assembled interactive dashboards and self-service tools using Power BI to deliver actionable information tostakeholders and support strategic decision-making.
- Extracted, joined, and analyzed complex data from various sources using advanced SQL and R, improving overall data accuracyby 30%.
- Identified opportunities to improve ways of working, successfully applying statistical techniques to improve overall dataaccuracy by 30%.
- Maintained key data repositories and ensured secure, well-organized operating environments through role-based permissions.

Jan 2022 – July 2024 | **Emmy Frank Nigeria Limited | Nigeria |Full-Time**
Data and Refund Analyst

- Gathered requirements and performed in-depth data analysis on customer transaction records using Python, yielding insights that improved reporting accuracy by 20%.
- Developed flowcharts and streamlined workflows to illustrate data flow through systems, significantly enhancing data integration and automated reporting.
- Designed and implemented audit processes to track refund metrics, successfully controlling variances and reducing refund fraud by 30%.

May 2020 – May 2021 | **Falcon FX Ltd | United Kingdom | Apprenticeship | Remote |Part-Time**
Financial Market Analyst

- Improved market analysis accuracy by 20% through in-depth research on financial and cryptocurrency markets.
- Boosted trading effectiveness by 25% through market analysis and trend monitoring to identify profitable opportunities.

Aug 2019 – Sep 2020 | **Fidelity Bank PLC | Nigeria | Internship | Full-Time**
Customer Support Analyst

- Increased product sales by 80%, exceeding bank KPIs through innovative marketing strategies and constant customer engagement.
- Escalated security risks in customers' bank transactions using the CRM System.
- Coordinated IAM account setups for new banking customers, which reduces customer complaints by 60%.
- Increased customer satisfaction by 15% through constant engagement.
- Improved service quality by 25% through data analysis.

PROJECTS

Sep 2025 – Dec 2025	Sec-filings-downloader – Extract data from SEC and perform analysis.
May 2025 – June 2025	World-Development-Project
Feb 2025 – June 2025	Detecting Phishing Attacks on Health Workers
Feb 2025 – June 2025	Risk-Management-Policy
Link for all projects	Github

AWARDS & CERTIFICATES

Jan 2026	Windows Server Active Directory Certification
Feb 2025	Google Cyber Security Certification
April 2024	Google Data Analytics Certification
Aug 2024	AI Prompt Engineering
Jul 2022	Financial Modelling and Valuation Analysis
Dec 2019	Best Customer Support Intern – Fidelity Bank Nigeria

---

IT AND LANGUAGE SKILLS

IT Security: Threat Analysis, Vulnerability Management, Incident Response, Risk Assessment, EDR, IDS/IPS.
Programming & Scripting: Python, SQL, R, Bash, PowerShell, Oracle.
Cloud Services: GCP, AZURE, AWS (Growing Experience).
Framework: ISO 27001, NIST CSF, SRF, CSA CCM, SAIF.
Security Tools: Linux, SIEM (Wazuh & Splunk), Playbook, Suricata, Wireshark, Virus Total.
Machine Learning and AI: TensorFlow, PyTorch, Scikit-learn.
Data Analysis & Reporting: Excel, PowerPoint, Power BI (DAX, Dataflows, Deployment Pipelines), Tableau, Microsoft 365, Data modeling, Data ware house architecture, Preparation, Cleansing, Interpretation, Statistical analysis, Knowledge of Databricks, Microsoft Fabric.
Collaboration & Communication: Report Writing, Excellent communication, People Management, High willingness to learn.
Soft Skills: Critical Thinking, Problem-Solving, Collaboration, Attention to Detail, AI Prompting Engineering, Innovative mindset.
Language: English: Fluent, German: A1
Name: TOOCHUKWU OKUTALUKWE | **Email:** OKUTALUKWETOOCHUKWU@GMAIL.COM | **Telephone No:** +43 68184146460
